## NICHOLA ROBERTS – Behind My Eyes

**ARTIST STATEMENT**

“*Behind My Eyes* is a collection of work that reflects what I've carried inside - thoughts, emotions, memories and moments- now expressed through paint. These pieces weren't planned or mapped out; they developed naturally as I explored what was waiting to come forward.

This exhibition is about giving shape to the unseen parts of myself and sharing that process openly. Each painting represents a part of my internal world - some quiet, some bold - all honest.

*Behind My Eyes* is an invitation to connect with that personal journey and to see how emotion, energy and imagination can take form on canvas. Perhaps you'll see a little of your own story behind these eyes too."

**ARTIST BIO**

I never set out to be an Artist.

I stumbled into it quite by accident after joining a friend at a painting workshop. But something clicked that day, and I haven't put the brush down since. That one afternoon opened a door I didn't even know existed.

I'm completely self-taught, I've learnt by watching, trying, layering, messing up, starting again and again - chasing that feeling of something beautiful taking shape under my hands.

I paint mainly with acrylics and love using generous amounts to create bold textures and rich layers. My work ranges from bold abstract expression to finely detailed rainforest scenes.

While these are distinctly different styles, they are unmistakably my own and I enjoy the contrast. I'm also a Reiki Master and I believe that the energy I carry flows into each painting.

People often tell me they feel something special from my work- something calm, uplifting or quietly powerful. That means a lot to me, because when I paint, I'm not just creating an image - I'm pouring in something much deeper.

My work is bold, textured, joyful, spontaneous… always evolving. I want people to feel something when they connect with my work - maybe a shift, a sense of calm, peace, spark of inspiration.
